## Specific study costs academic year 2023-2024

In addition to the standard tuition fee, as a student in KASK & Conservatory, you are also required to pay special study fees (variable fee):

- The fixed fee is due for all enrollments combined and covers the cost of student software licenses distributed through the digital platform: Windows, Office, MacAfee virus scanner, Linked in Learning, Adobe Creative Suite (not for Music, Drama, Sculpture, Painting), SketchUp (Interior Design, Landscape and Garden Architecture), GIS (Landscape and Garden Architecture)
- The variable fee is calculated per enrollment based on the corresponding credits taken. Some examples of variable costs:
  - 
  - photocopies: additional assignments and exercises, explanations of assignments, text excerpts, scores, plans, exams, etc.
  - basic utensils and consumables in workshops
  - waste disposal of specifically studio-related activities (plaster, metal, wood, products analog photography, etc.)
  - joint study trips
  - purchase, management, maintenance and repair of loan and used equipment, including instruments, for students in the classrooms, workshops and in the various loan services
  - joint costs in projects and during project week

### Calculation

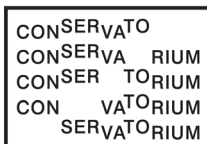

Calculations are made individually and are based on the program/traject and enrollment (relative to a full program). The schedules are included in the education and examination regulations, found on the website, among others.

### Invoicing

Shortly after (re)enrolling, you will receive a preliminary invoice in your HOGENT mailbox. Please pay this, indicating the structured communication.

The regulations and arrangements regarding special study costs, exceptions and refunds in case of unregistration can be found in the Education and Examination Regulations 2023-2024.

VERSO: contributions per program.
